LUXURIATE: Combining stylish modern accommodation with distinct heritage flavour, Heritage on Lydiard offers a selection of rooms.

The ultimate in accommodation

TRANSFORMED into an architecturally designed masterpiece combining stylish modern accommodation with distinct heritage flavour, Heritage on Lydiard offers a selection of rooms.

The accommodation is divided into two types. You can have a heritage room which is in the original part of the bank. These rooms come in executive and superior and each is uniquely luxurious.

Bathrooms in the heritage rooms have been built without making any structural changes to the building itself and so have a floating quality to them.

Many of the heritage rooms overlook Lydiard St and give great city views of Ballarat.

The modern part of Heritage on Lydiard offers what is called standard room accommodation, but these rooms are anything but standard.

In these rooms are comfortable leather lounges, bed heads made of solid timber and artwork unique to Ballarat.

The family suite offers a main suite and a separate bedroom with two single beds and its own ensuite. The ensuite in the main room has a large spa encased in a curved glass wall — a lovely and unexpected detail.

All standard, executive and superior rooms are equipped with 40" LCD screens, complimentary cable TV, in-house movies and wireless internet and

some rooms feature spas, gas log fires and chandeliers.

Available to patrons is the onsite gymnasium, heated roof-top plunge pool and spa and roof-top sun deck — a great place to unwind.

The well equipped gym offers treadmill, cross training machine, free weights and weights machine plus many mats and fit balls to use.

After a workout relax in the spa and plunge pool or chill out on the stylish outdoors furniture on the sun deck.

When you stay at Heritage on Lydiard you can expect to feel comfortable in the luxurious surroundings and to be pampered by the hotel's friendly staff.
